

OCCUPATIONAL SAFETY AND HEALTH POLICY STATEMENT

Global Advanced Metals is committed to achieving the highest standards of safety and health for all its employees and stakeholders associated with all of its operating activities. Consistent with this objective, Global Advanced Metals will:

- Achieve continuous improvement by incorporating applicable management systems, knowledge and technology, in conjunction with the utilisation of best practice procedures;
- Manage risk through hazard identification, assessment and appropriate management programs;
- Ensure that all employees and contractors are instructed, trained and assessed in the tasks each will be required to perform and in the operation of all plant and equipment;
- Communicate and consult with employees and contractors and where appropriate involve them in the development of practices and procedures focused on the improvement of occupational safety and health performance;
- Ensure that all employees and contractors are fully aware of their responsibilities to take reasonable care to ensure their own health and safety at work and to avoid adversely affecting the health or safety of others through any act or omission at work;
- Co-operate with government and the community on occupational safety and health issues and contribute to the development of relevant occupational safety and health policy, legislation, standards and research;
- Comply with all appropriate legislation and standards as a minimum.

Global Advanced Metals will focus on the development of a culture where safety is a core value and every individual takes responsibility for their actions and works as part of a team with a shared vision and objective to eliminate all incidents from the workplace.
